About

HR Co-Pilot simplifies employee interactions with HR policies and processes. Employees can inquire about company policies, including travel and leave, and access their leave details. Integration with MS Teams enables seamless interaction, making HR interactions efficient and accessible.

UNIFIED CLOUD EXPERIENCE

AUTOMATED SYSTEM

INTELLIGENT

Achievements

- ✓ **Reduce** Policy Inquiry Times by **50%**. Empowering Employees with **Quick and Accurate** Information!

Challenge

- ✓ Employees **face difficulties** in accessing and understanding various company policies as they often need to navigate through multiple PDF files on the **employee portal**. Additionally, checking leave details requires accessing the internal portal, leading to a disjointed and time-consuming process

Solution

- ✓ With **HR Co-Pilot**, employees can easily inquire about company policies, and access other HR services through a user-friendly chat interface. The **chatbot** uses NLP to understand employee queries and provides prompt and accurate responses. By automating these processes, HR Co-Pilot streamlines HR operations and improves overall **employee satisfaction**.
