## Streamlining Sales with Instant Product Insights: Your Chatbot Catalogue Companion!

<https://www.atqor.com/services/microsoft-copilot-consulting/>

Implementing **generative AI** could increase sales productivity by approximately **3 to 5 percent** of current global sales expenditures - According to **McKinsey Report**

atQor AI

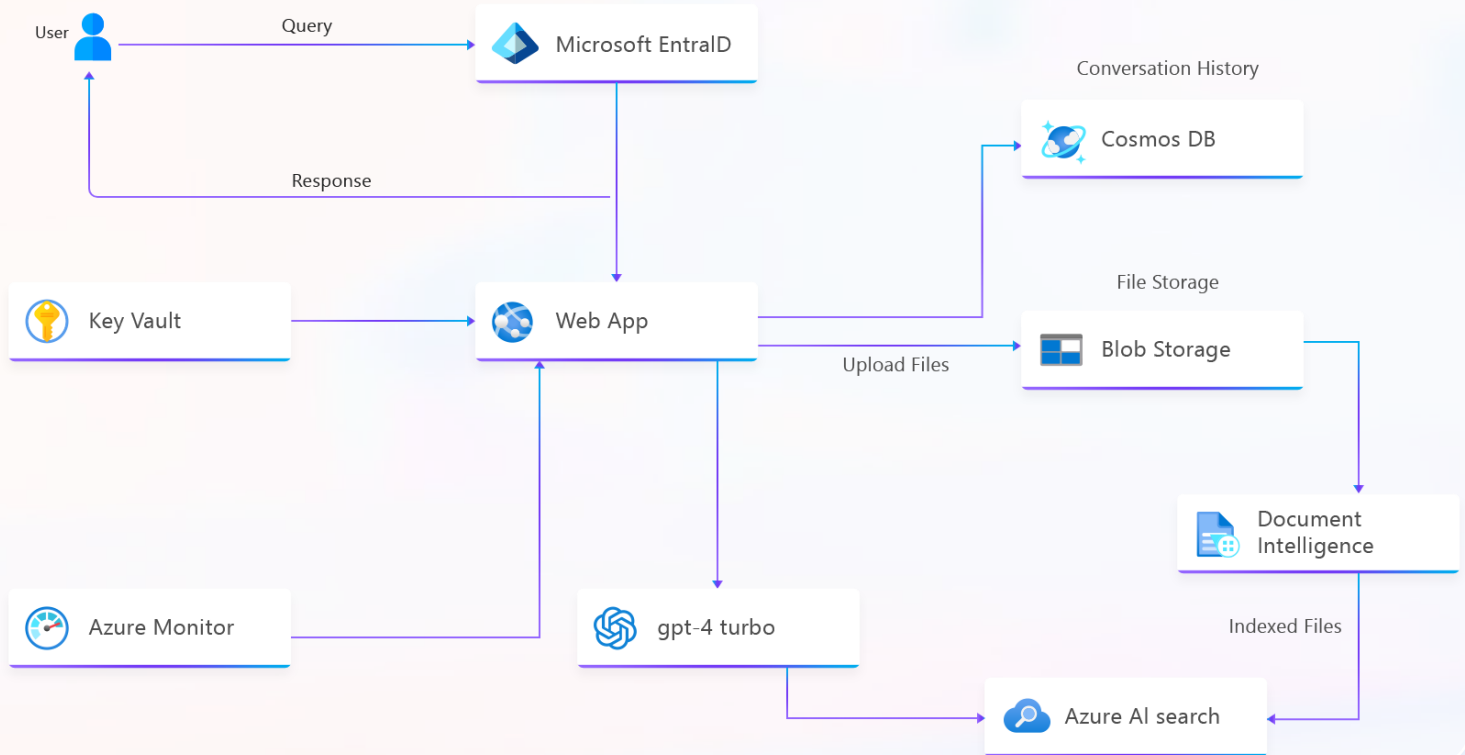

## About

Our solution stores all product catalogues in a structured vault, enabling the Chatbot to access files efficiently. Sections are labeled for contextual understanding, and images are parsed for text extraction.

UNIFIED CLOUD EXPERIENCE

AUTOMATED SYSTEM

INTELLIGENT

## Achievements

- ✓ **Revolutionizing** Sales Support: Achieve **60%** Faster Product Information Retrieval with **Our Chatbot Solution!**

## Challenge

- ✓ Sales teams face **challenges** in quickly finding specific product information due to time-consuming navigation, unorganized catalogues, **complex product data**, and outdated information.

## Solution

- ✓ **The Chatbot** provides quick access to answers from different catalogues with references, stores answers for faster response. It also allows **viewing PDFs in the chat window** and labeling them for future reference.
